

**Imagine
the loss.**

Don't buy Dominion's propaganda.

**"The Atlantic Coast Pipeline Will Change Everything, and Nothing."
Says who?! (Dominion, of course!)**

After a career defending our Nation, a retired Air Force colonel will lose property rights by eminent domain to a for-profit corporation... **Nothing will change?**

After living for decades on a breathtaking mountaintop in Nelson, a family will watch their beautiful landmark clear-cut and forever ravaged by Dominion... **Nothing will change?**

Residents and visitors seeking beloved quiet roads and scenic drives will instead face heavy truck traffic and construction congestion... **Nothing will change?**

Property values in Nelson along the pipeline will be degraded... **Nothing will change?**

Nelson County businesses —farmers, ranchers, vintners, brewers, restaurants, inns—and others who rely on clean water to sustain the county's economy will have to worry about dried up and contaminated aquifers... **Nothing will change?**

Those who live within Dominion's "sacrifice zone" (a 2000-foot blast radius) will lie awake at night, concerned about leaks, ruptures and explosions in the high-pressure pipeline... **Nothing will change?**

Imagine the loss. Don't buy Dominion's propaganda.
